Julian **Lüken**

Expert in Signal Processing
and Applied Geometry

Education

Qualification

2019–2023 Applied Computer Science (M. Sc.)
Specialisation in Scientific Computing
and Signal Processing
Georg-August University Göttingen

2016–2019 Applied Computer Science (B. Sc.)
Specialisation in Scientific Computing
Georg-August University Göttingen

2003–2013 Abitur
Europaschule Gymnasium Rhauderfehn

Academic Projects

2022 Master thesis project **CoolingGen**
A parametric CAD software specially designed
for generating turbine blade cooling geometries
German Aerospace Center, Göttingen

2019 Bachelor thesis project **SUSAN**
Feature detection based on a combinatorial scheme
Inst. of Numerical and Applied Math, Göttingen

2018 Scientific Computing Practical
Denoising of piecewise constant images
Inst. of Numerical and Applied Math, Göttingen

Practical Experience

Career

2021–2023 Research Associate, Developer
German Aerospace Center, Göttingen

2019–2021 IT Department Staff Member
keydel bock ingenieure gmbh, Göttingen

Jobs

2017–2019 Postman
Deutsche Post AG, Göttingen

2008–2012 IT Temp
Gebr. Bruns Heizkessel GmbH, Saterland

Skills

I don't have any.

Interests

Reading Music Programming Math Video Games
